

**WHEN THE
RACE
HEAT IS
ON**

KEEP YOUR HORSE COOL

A Race Horse that exerts a lot of energy can also heal, benefit and regain strength for a better endurance by providing cold therapy once they've completed their athletic endeavor; this minimizes the chance a horse will stock up and become sore. One application of our crushed ice for 20 to 30 minutes should aid in recovery from exertion.

**GIVE THE BEST
TO YOUR
HORSE**
